Your name

Your signature.....

Relationship to patient.....

Date

What does it mean if I DO NOT have a Summary Care Record?

NHS healthcare staff caring for you may not be aware of your current medications, allergies you suffer from and any bad reactions to medicines you have had, in order to treat you safely in an emergency.

We will continue to send referrals and information regarding your health, which is necessary to enable any treatment you may need, to appropriate outside agencies but they will not be able to view your summary care record only what we have sent them. They will however, have a record of the visits you have made to see them and details of the consultation.

If you have any questions, or if you want to discuss your choices, please contact your GP practice.

Office Use – 9ndo
